CREATING A  
MEMORABLE &  
UNIQUE DINING  
EXPERIENCE FOR  
YOUR FELINE  
EVERYDAY!

# THE PURR-FECT RECIPE FOR A LIFETIME

## A MESSAGE FROM THE FOUNDER

We have always been asked; who is Cindy?  
And why her recipe? Most would have never ever  
thought that Cindy is infact a living Main Coon  
cat, and she is now 20 years old. (when  
this foreword was written)

No one loves your cat more than we do. Our goal at **Cindy's Recipe** is to create memorable and unique dining experience for your feline everyday! Developed with love, our delectable recipes have been satisfying felines of the world for over 20 years! From our classic **Original, Favourite & Delicious Recipes**, to the new **Naturelle Grain-Free Superpremium Cat Food** and **Lactose Free Cat & Kitten Milk!** Cindy's Recipe make your cat's every day dining experience extraordinary! Our delectable selection of premium wet cat food will make meal time the highlight of their day!

### EXPERIENCE THE #1 CAT FOOD BRAND

With years of research and innovation, we have been able to develop an extensive range of 36 recipes (and counting), providing a complete well-balanced and nutritious meal for felines of all life stages. Made of 100% human grade fishes and poultry; our delectable recipes are meat-dense, grain-free and low in carbohydrate. They're also fortified with essential nutrients, including Vitamin B1 – for healthy heart and nervous system, Taurine – for healthy vision and FOS – for healthy digestion and hairball control.

Customers can have peace of mind knowing that all our recipes are prepared and cooked in our world-class kitchen, while our cleaning, hygienic & grooming products are all-natural, toxic-free and safe for all pets - all made to the strictest standards to ensure the highest level of quality and safety.

As a nutritional scientist for a dairy company, I adapted cindy from a good friend of mine after he discovered that she wasn't getting along with his other cats. All the stress had caused Cindy's health to deteriorate due to the loss in appetite. My initial goal was to nurse her back to health, so I did some research and started preparing Cindy's meals with the hope of awakening her love for food using the freshest ingredients, infused with all natural supplements, over time she regained her health and the proof (as they say) is in the pudding; Cindy's beautiful luscious coat returned and soon she was jumping around like an energetic new born kitten! Friends started witnessing the change in Cindy and I could not be more happy to share this goodness to other cats! In 1995, I founded Cindy's Recipe with a simple goal, which is to make wholesome, natural and nutritious food that all cats deserve. This principle has become the premise of Cindy's Recipe food now and ever.

CINDY'S  
RECIPE

Lactose Free\*

CAT & KITTEN  
MILK

NEW  
Made In  
Belgium

## NUTURING WITH CARE

As part of our commitment to providing complete nutrition, the new **Cindy's Recipe Lactose-Free Cat & Kitten Milk** is made from 100% natural cow milk, with no sugar added. Fortified with vitamins and taurine with no artificial preservatives, it's the perfect option for both cats and kittens looking for the goodness of natural milk.

Available in a convenient travel size 250ml bottle.

### Composition:

Whole Milk, Skimmed Milk, Enzyme, Taurine, Vitamin A, D, & E. Taurine 400mg, Vitamin A 2000 IU, Vitamin D3 50IU, Vitamin E 5mg

### Guaranteed Analysis:

Protein 3.0%, Crude Fats 3.3%, Crude Fiber 0.2%, Crude Ash 0.8%, Moisture 86.3%.

## WHAT IS LACTOSE FREE MILK?

Lactose is the natural sugar that contains in the regular milk. Cats need lactase, an enzyme produced by the stomach, to break down the lactose so the body can absorb it. However, some cats are lactose intolerant in nature (due to lactase deficiency in their body). Cats that are lactose intolerant may experience acute intestinal distress – like gas, diarrhea or vomiting when they consume dairy products containing lactose. With this in mind, we added a natural enzyme into our milk to remove the lactose so that cats (and kittens) can consume it without experiencing any gastrointestinal problem.

## WHY DO WE FEED MILK TO CATS?

Natural cow milk has many important health benefits for cats. Besides promoting general well-being and good health, it also build strong bones and teeth, boost the immune system, protect the heart, prevent diabetes, eliminating inflammation and even help promote growth. It also help cats keep hydrated during long hot days.

## WHY CHOOSE US?

- + A Natural Taste and Appetite Enhancer
- + Great for weaning kittens from mother's milk
- + A Healthy Daily Treat

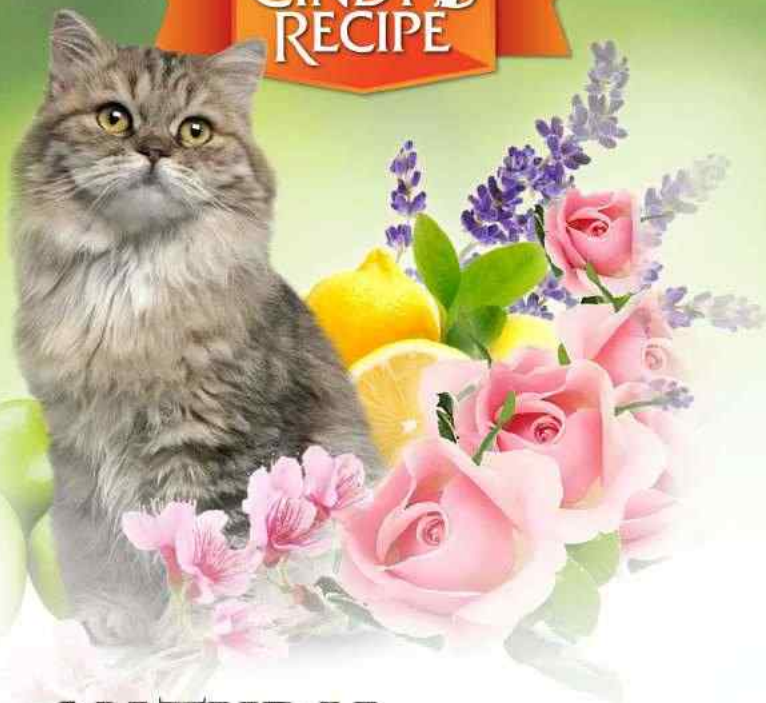

- + Human Grade Milk
- + No Sugar Added
- + Fortified With Taurine & Vitamins
- + 100% Natural With No Artificial Preservatives

HANDY  
TIPS

**CINDY'S  
RECIPE**

## NATURAL CLUMPING CAT LITTER WITH A REFRESHING SCENT

**Cindy's Recipe® Natural Clumping Cat Litter** is made from only the highest quality natural bentonite clay. These carefully selected bentonite clay have unique characteristics that include superb absorbency, extra-strength odour control and the ability to clump without any added chemicals. Through our propriety treatment process, excessive dust and impurities are removed and further supercharged for absorbency power.

### SILICA BEADS

Silica beads are added as odour neutralising agents for total odour control. As a result, Cindy's Recipe® Natural Clumping Cat Litter is clean, safe and easy to use.

### ODOUR CONTROL

Odor is kept under control with our Extra-Strength Odor Control Formulation. Litter is kept fresh with natural scents like lavender, apple, lemon, cherry blossoms and rose!

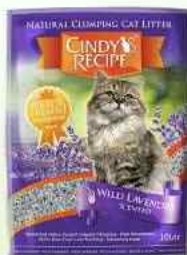

### HIGH ABSORBANCY & SUPERB CLUMPING

Our natural clumping cat litter formulation allows for high absorbancy and tight, fast clumping!

### 99.9% DUST FREE & LOW TRACKING

No more dusty litters with our low tracking non-flaking formulation.

## 6 VARIANTS OF NATURAL REFRESHING SCENTS
